Open Statement, Rakshesh Jaghadish L, Public, Human Being

Generally, I don't hurt anyone with any intention. After my email on 16th January last, I am being deliberately harassed by powerful corrupt politicians in a psychological way. I was continuously monitored by them on Twitter for the past few months. The same day I sent the email, someone contacted my parents by phone. He asked, "is your son a doctor". Then days passed and PM Modi spoke to the media after the email I sent him saying "somebody tried to tarnish India's image". Then on February 6th, 2022 my Novecore Music account was hacked. That is 19 days before the outbreak of war between Russia and Ukraine. That is 13 days before the Munich Security Conference. I received a new data breach notification on 6th Feb 2022. Then the planned war between Russia and Ukraine began on February 24. My tweets through Twitter changed the course of the planned war. Then on March 9th, I made a request via Twitter to Elon Musk to create an open source social networking medium like Twitter. I never imagined that he would announce the acquisition of Twitter on April 25th. Then days went by and every time I whistled in front of my house, my street only got blackout. I know who they are. But I remained silent. I also found myself being followed whenever I go out or go to

college. I also found they hacking my device through my mobile using a mobile service van and I allowed it for analysis. I know it's illegal spying.

My Accuse that they using my Aadhaar Digital ID in the wrong ways. This means they leaked my Phone Number to the RSS BJP Mobs. After they Leaked I Got Messages from the Foreign States (Philippines) and the Bihar Like States. Not only My Digital ID, those who all are against them and their Genocide.

There is no Safety and Privacy when it's come to Digital ID.

They also cut off the electricity in my college exam room when I was going to take the exam. It seems that they think that their actions make to scare me. Every time I tweet against Genocide, every time I tag Elon Musk on Twitter, every time I tweet against vaccination, my street and house are cut off. Every time I tag International Criminal Court on Twitter my street and house have been cut off and continue to be cut off.

I usually don't go to any fuss. I am generally quiet. I can communicate internationally. I'm not who you think I am.

Human rights are equal for all. Whenever human rights are violated, humanity is depleted. Inhumane politicians continue to divide people in the name of religion and caste and incite hatred among people.

The government is run by the public people. People elect a person as a representative of the country through elections to protect the country and its people. But for the last 40 years, they have been doing nothing but corruption without doing any work to protect the people.

Persons elected by the people abandon the people and corrupt politicians collude with pharmaceutical companies to spread diseases, sell drugs and kill the public for greed profits.

Now, in the name of the coronavirus pandemic, Corrupt Politicians lured by greed money and power are now committing genocide against the World Peoples.

And also, they label Truth, Truthful Information, and The Real Pain of the Public Peoples as misinformation. That's what the unscientific media does.

Without any scientific evidence, psychological warfare is being waged on a global scale by globalists using the Lockdown and the planned pandemic.

In the name of the pandemic, the personal agenda of globalists is being enforced by force and imposed on the general public.

In the name of Lockdown two innocent men named Jayaraj-Fenix from Tamil Nadu were Arrested for violating lockdown norms over the

business hours of their shop. They were taken to the police station by police officers who are the slave of corrupt politicians. Brutally vandalized, dresses were removed and cops inserted metal objects into one of the arrested men's rectum and beaten to death and the police staged a drama to cover up the murder.

Who empowered the police officers to torture those or prisoners who are being taken for questioning, stripped naked, and tortured?

Clothing is a shield that gives dignity, a fortress, and protection. Stripping those brought in for interrogation is an act of inhumanity beyond measure. Whether those who are taken for trial or accused are guilty is decided in a court of law.

A police officer has the same dignity and human rights as the unaccused and the accused have the same dignity and human rights.

Human rights are natural in this world. It needs to be taught to present generations to create better future generations.

Government employees owe a debt of gratitude to the people as their salaries are paid out of people's tax money.

People do not need to be loyal to politicians or governments.

Politicians and governments must be loyal to the people.

Corrupt Politicians and Governments Rs. 2,063 Crore worth of statues of dead corrupt politicians. What did they do to the people?

Instead of wasting that 2,063 Crore rupees on an idol, that money could have been spent on people who are suffering without medical help and without food.

There is more to say. - + No more to say.
